

Solidan Campaign

Statement on Sudan Revival Program (SRP30)

Solidan Campaign welcomes the signing of a Political Framework Agreement between civilian political forces and the military institution in Sudan that took place on December 5, 2022 in Khartoum, Sudan. The Agreement is a critical first step towards the restoration of a sustainable transitional period and the formation of a credible civil, democratic, and accountable government.

The campaign also welcomes that this signing is supported by the Trilateral Mechanism-United Nations Integrated Transition Assistance Mission in Sudan (UNITAMS), African Union (AU), and the Intergovernmental Authority on Development (IGAD).

Solidan as an international advocate campaign that endorses democratic transformation in Sudan calls for supporting the Political Framework Agreement, endorsing the democratic transition in Sudan and promoting the role of Sudanese diaspora worldwide by empowering the Sudanese people inside Sudan and abroad.

Solidan campaign restores activation of its efforts and work in democracy and peace building in Sudan and in mobilizing the local communities at international level to support people of Sudan, and we will conduct broad range consultations to launch "Sudan revival program" that aims to encounter and to minimize the effect of non democratic ideologies, forces and movements in Sudan through strengthening the Sudanese civil society, NGOs sector and business sector.
